FINANCIAL MANAGEMENT SOLUTIONS

Business intelligence in international financial funding.

Project and credit management for Startups.

Support to help your business grow.

Success

ACCELERATING THE FUTURE

Grupo Financial offers **Business Intelligence** solutions focused on boosting company's growth from diverse segments. Through the expertise of its professionals, the group identifies the company needs and gives assistance to its growth; promoting financial consulting solutions specialized in **structuring, engineering, funding, management and continuity**.

Grupo Financial's biggest differential is to operate in all stages of the process: business plan elaboration, accounting analysis of the results, technical diligence, opening of a company abroad and interlocution with financial institutions around the world.
